

Thank you, Lord for taking care of your children.

O Lord, our rock in times of trial, thank you for being with us all as we face the difficulties that the coronavirus has brought. We feel your presence and are comforted.

You are there with those who are disappointed at not having the joyful celebrations of weddings, family gatherings, graduations and celebrations of life at birth and death. You provide joy to us in other ways, if we just pay attention.

Lord, hear our Prayer.

You are there with those of us quarantined at home, when we want to be saying words of comfort to those who are far from us. You take our words and whisper them to our loved ones for us.

Lord, hear our Prayer.

You are there, holding the hand of the sick or dying when their family cannot be with them.

Lord, hear our Prayer.

You are there protecting and guiding all on the front lines of medical care, vaccine development, police and firefighters and those in the supply chain to provide us food from farmers to truckers to grocery store workers.

Lord, hear our Prayer.

You are with our clergy who are doing your work under stressful circumstances and providing them with your words of comfort and caring to share with us.

Lord, hear our Prayer.

Let us never forget that wherever we are, you are there also with us, every step of the way.

In Jesus' name,

Amen
