I learned today that physically seeing a covid case amount per country graph mold into a final draft was my best proof of showing the inaptitude that lies in our central government/society. The listed graphs exhibit our society's incapacitation. We certainly couldn't fight this war. Foreign countries took the covid threat with precaution; us, we took it, wrapped in a plastic bag, and crusaded the beach. Our country's case count seemed to practice for the one race nobody wanted to win.
