His Fraudulency Joe Biden’s call for fascist federal vaccine mandates has **done nothing** to increase the vaccination rate.

On September 9, when this doddering old fool made his fascist announcement, **786,493** people got vaccinated.

The next day, September 10, that number dropped to 721,844.

The following day, September 11, it dipped further to 711,899.

After that, the number did increase a bit but has still not risen to the September 9 number.

There could be any number of reasons for this. First off, the daily vaccination number was already decreasing on September 9. Secondly, things are naturally going to drop off after pretty much everyone who wants to get vaccinated is vaccinated.

So let me be very clear on one point. I am NOT claiming Biden's announcement backfired and that he is the reason for the drop in vaccination rates. Nothing in the data supports that.

What is pretty straightforward, though, is that Biden's threat that if you don't get vaccinated, you might not be allowed to hold a job, did nothing to move the needle.

Secondly, he wanted to change the national conversation; he wanted to stop us from talking about how he handed the Taliban hundreds of American hostages and tens of billions of dollars in operational U.S. war equipment.

President Joe Biden pauses as he speaks about the bombings at the Kabul airport that killed at least 12 U.S. service members, from the East Room of the White House, Thursday, Aug. 26, 2021, in Washington. (AP Photo/Evan Vucci)

Third, this was an opportunity to appeal to his fascist left-wing base, and he must hold that base to stop his numbers from caving-in entirely.

Fourth, this was yet another opportunity for Biden to demean and dehumanize the unvaccinated, who the organized left (Democrats, the media, celebrity, etc.) imply are only Trump supporters.

And His Fraudulency does this because he knows that the best way to convince the unvaccinated to remain unvaccinated is by dehumanizing, demeaning, and bullying them.

President Biden @POTUS
United States government official

My message to unvaccinated Americans is this: What more is there to wait for? What more do you need to see?

We have made the vaccinations free, safe, and convenient. The vaccine has FDA approval. Over 200 million Americans have gotten at least one shot.

Do the right thing.

If you doubt that, please tell me when dehumanizing, demeaning, and bullying someone convinced them to do anything?

No one has done a better job of convincing people NOT to get vaccinated than His Fraudulency

First off, during the campaign, both Joe Biden and her Vice Fraudulency Kamala Harris repeatedly told their voters not to trust the “Trump vaccine,” which appears to have worked beautifully in the black community, which is disproportionately unvaccinated.

Then, after being fully vaccinated, Biden undermined vaccine confidence by continuing to wear a mask, even while outdoors—something he’s doing again now.

And now, he’s ensuring the unvaccinated remain unvaccinated by bullying, demeaning, and dehumanizing them as walking biohazards when the truth, according to the CDC, is that the unvaccinated represent [so little of a threat](#) to the vaccinated, I don’t even worry about them.

Gee, do you think Biden’s anti-science talk about the vaccinated requiring a booster increased or decreased confidence in this miracle vaccine?

Let me put it this way...

Why does Biden require that tourists get vaccinated but does not require illegal aliens to get vaccinated?

Why are the media and Democrats not furious over the fact that Biden is importing tens of thousands of unvaccinated people during a pandemic?

There’s only one answer...

Tourists primarily visit blue cities, so Biden wants them vaccinated.

These tens of thousands of illegal aliens are being seeded throughout the country, so Biden does NOT want them vaccinated.

The left wants us dead.

There is no other answer.

If you really prefer facts to blatant lies and propaganda, what do you have to say about Nolte's lies and propaganda above?

First off, during the campaign, neither Joe Biden or Kamala Harris repeatedly told their voters not to trust the "Trump vaccine."

So doesn't that make this Nolte claim lies and propaganda?

First off, during the campaign, both Joe Biden and her Vice Fraudulency Kamala Harris repeatedly told their voters not to trust the "Trump vaccine,"

Yes, they did. And both Biden and Pelosi said that they CANNOT mandate vaccinating people.

(And around the 10 minute mark of the above video from Jimmy Dore, he highlights Andrew Cuomo saying, "Is the vaccine safe? Frankly, I;m not gonna trust the Federal Government's opinion.").

Per v. Joe said in July 2020:

Look at what's happened. Enormous pressure put on the CDC not to put out the detailed guidelines. The enormous pressure being put on the FDA to say they're going, that the following protocol will in fact reduce, it will have a giant impact on COVID. All these things turn out not to be true, and when a president continues to mislead and lie, when we finally do, God willing, get a vaccine, who's going to take the shot? Who's going to take the shot? You going to be the first one to say, 'Put me — sign me up, they now say it's OK'? I'm not being facetious."

And Kamalatoe Harris during a Sep. 2020 CNN interview:

Bash: "Let's just say there's a vaccine that is approved and even distributed before the election. Would you get it?"

Harris: "Well, I think that's going to be an issue for all of us. I will say that I would not trust Donald Trump . . . I will not take his word for it."

Now you're just being obtuse. I linked a video, which most people would accept as proof.

Oh, I get it. Kamala didn't specifically say "Trump vaccine". I was speaking in the broader sense that both of them did say they would not get "the vaccine put out by Trump", or "The vaccine recommended by Trump" or "pretty much anything that has to do with Trump."

"And by the way, . . . you know I sit on the stand, and to get hot, I got a lot . . . I got hairy legs that turned, . . . that, . . .

that, . . . that, that, that, that turned, . . . um, blonde in the sun. And the kids used to come up and reach into the pool and rub my legs down, so it was (word unrecognizable), and then watched the hair c, . . . come back up again; They'd look at it. So I learned about roaches; I learned about kids jumping on my lap, . . . and I LOVED kids jumping on my lap".

You completely rewrite history when you say that

First off, during the campaign, neither Joe Biden or Kamala Harris repeatedly told their voters not to trust the "Trump vaccine."

Just watch the following video

From politically left wing Jimmy Dore:

Vaccine Mandate FLIP-FLOP! Biden, Fauci, Pelosi Opposed Mandates [26:48]

<https://www.youtube.com/wat...>

All great info throughout the video.

The first minute and a half is Biden and Pelosi both saying that they CANNOT mandate getting vaccinated.

That they can't REQUIRE someone to be vaccinated.

That it's something that they just cannot do.

Then, around the 7:15 mark, Jimmy Dore highlights how Biden and Kamala used to "foment vaccine hesitancy".

Your name should be "Try Not To Be a Liar".

Keep patting yourself on the back. Most of us got the message from what they said, and what they didn't say. It's all word-play. The bigger point is that not only have they not instilled confidence in people to get vaccinated, they have done just the opposite with the constant changing of the story (especially Fauci) and as a result they made a LOT of people hesitant to get the jab.

When / where can we find that? I don't doubt that the majority of illness and problems are in the vaccinated or that the vaccines themselves are causing many, many people to suffer serious adverse effects, but I can't believe the CDC would admit to that.

The variants are actually delayed reactions to the vaccine. Causing the vaccinated people to be admitted to the hospital with blood clots and heart problems. There is not a delta virus.

I have to disagree with that. I have some good friends - unvaccinated - who got covid in July and August. Its not a vaccine-caused side effect. It was actually covid.
