Definitions

NR: Data not reported due to more than 50% of cases with unknown race/ethnicity.

NA: Data suppressed when fewer than 10 cases occur.

Notes

Percent of cases in each state may not sum to 100% due to rounding. Percentages are based on a total c

% of Cases Missing Race/Ethnicity Data is the share of total cases reported in a state for which race/ethnicity is not known. So

Persons of Hispanic origin may be of any race.

As of April 19, 2021, data on COVID-19 cases is from CDC COVID-19 Case Surveillance Restricted Data. D

The CDC does not take responsibility for the scientific validity or accuracy of methodology, results, statis
