

Thank you Mrs. Jue! A lot of us notice that you are always staying up super late to grade our work (until 3am sometimes) and we have never seen a more hardworking teacher. Even through distance learning, we can truly feel your energy and presence through the screen and we really appreciate the support you give us during these hard times. I am taking 4 AP classes this year, but this class is by far the only class where I feel supported in and not hopeless about whether or not I can do well. I think this says a lot about your teaching because I think everyone can be successful in a class with a teacher who prioritizes the success of all students. Names and blank faces may seem like a blur through the screen, but a lot of us recognize the hard effort you put into teaching everyday, especially with how unfulfilling it must feel on the other side. Although this school year is happening remotely, making it extremely difficult to connect with teachers and other students, I hope this email reaches and energizes you as you push through another long Friday night of grading.

To Mrs. Jue, I just want to say thank you so much for being such a cool and amazing history teacher! Ever since high school started, I've never liked history because it felt so monotonous and my teachers always seemed like they just wanted the class over with. Being in your history class this year though has been so refreshing, and it's so amazing having a teacher who is enthusiastic about history and how it affects us in a modern sense, and especially a history teacher who wants to help us hear the voices of the unheard. I know it must be so awkward sometimes making jokes and not having anyone laugh at them in person but I can promise you your jokes and side comments always make me giggle :^) Also, I've noticed you sometimes grade our assignments at 2 am and WOW thank you for your hard work and dedication it really makes me love history again! Hope you're staying safe and healthy!

Thank you for being the most awesome teacher ever!! I have never enjoyed a history class until you made it so fun for me to learn. Thank you for working so hard and providing us with all the resources we need to succeed in your class. I'm looking forward to visit your class when school opens again. I hope that your family and Mr. Gorbachev (I'm not sure how you spell his name) are doing well! Please bring ---- and I some extra berries from your garden when we meet again :)

To Mrs Jue, thank you for everything. I know that you would much rather be in actual class but you somehow still manage to be so positive that that definitely radiates more positivity onto my day so thank you!

Thank you for making APUSH enjoyable and exciting! Your passion for history reflects on all of us. I really enjoy learning about history through the way that you teach. I'm very excited to continue the course and learn even more! Thank you for being awesome!

With thanks,

Hey Mrs. Jue, it's -----! Firstly, I admire you for being so positive during this stressful year, it really lightens up my mood and makes it so there's never a dull moment in 2nd period. After taking the apwh exam, I was very hesitant to repeat the whole process but you've been so amazing in offering support and encouraging us that I'm definitely more relaxed and confident in myself! Also, your instagram OOTD posts are the best, thank you for being one of the coolest, most kind-hearted teacher I've ever met!

To Mrs. Jue: Thank you for all the fun times we have in class on Zoom and I highly appreciate your enthusiasm regardless of the situation you're in. I hope to be as optimistic as you in the future and for bringing light to my mornings during 1st period.

Although we haven't physically met and I haven't been in your class, I really enjoy what I am learning and your teaching. I love the little talks about economy, it's really interesting to hear! I hope you have a great Halloween and great wishes to your family. Thank you for being a great teacher!

To Mrs. Jue: Thank you for greeting us with smiles as we walk in the "door" to your Zoom classroom. Thank you for being enthusiastic about teaching and history (It's a little contagious. By a little, I mean a lot). Thank you for insisting on teaching even when the threat of a fire approaches your house. Thank you for the anecdotes about your family (I especially enjoyed the story about your daughter and the frog she doesn't like but still wants to save from the fire). I've only been your student for a few months, but I already know that I'll be enjoying you and your class.

Thank you for making U.S. History fun and interesting! I love how you are always so energetic and passionate when it comes to teaching. You make it easier to understand the history and learn new information. I like how you organize our assignments and give us reminders to help us stay on track. I truly appreciate your continuous support and look forward to having a great rest of the year in your class.

I want to thank you for always being so nice in class, definitely one of the nicest teachers I have ever met! You have really helped me understand history and your lectures both in class and online are straightforward, which really helps me understand the topics. You also give really good advice and feedback which makes me feel that you actually care about my future. I hope we have an amazing rest of the year!

Thank you so much for always being so positive during this difficult time. I really appreciate how you always lighten the mood in class. I felt very nervous about APUSH but you made me like the class a lot more. I can't wait to see you when we come back!
