

Saint Anselm College
Instructor, Beth Salerno
HI363

Hi363 assignment: “You must post a submission to the Covid-19 Journal of the Plague Year archive at <https://covid-19archive.org/s/archive/page/Share> (Links to an external site.). Your hashtags (without the #) should include HI363 and SaintAnselmCollege so I can find them. Below are 10 pandemic prompts that might give you ideas of what to post about (if one inspires your submission your hashtag should include the words pandemicprompt and the name of the prompt). You might also look at the calls for submissions (Links to an external site.) which describe content a curator really wants or you might define for yourself what the archive needs for historians in the future to best understand your present. You will be graded on your ability to articulate why you chose what you chose and the quality of your attention to the details of the submission process.

Pandemic prompts: holidays (Links to an external site.) , New Year (Links to an external site.), favorite things (Links to an external site.), community (Links to an external site.), entertainment (Links to an external site.), pandemic hacks, pets, student life, lost seasons (sports), keeping connected

Click the button on the website to have your entry sent to you via email. Then copy the email into this assignment and submit it.”
