

## Every story matters – Greek Week 2021

Greek Week was my first experience in a sorority. It was amazing to live thanks to the help of the Greek life leaders. Because of COVID-19, it had been online, and the experience wasn't the same. I'm really thankful that it was possible to do it in person this time, and it meant a lot to me to bond with my new sisters. Paul, one of the main authorities during this event was a very good leader. He maintained COVID-19 guidelines and enforce them very strictly. Thankfully nobody got COVID-19 and the games were played and fulfilled as supposed to. Without him or the other figures that helped everything would have not been possible, this experience wouldn't have been what it was.
